- Acknowledgment: for exceptional contribution and dedication; Eurofarm Centar, 6.12.2024.
- Acknowledgment for invaluable contribution to the organization of the 3rd International symposium on Echocardiography, May 10-22, 2025, Banja Luka, Association for Preventive Cardiology
- "Women in Medicine - Empowerment & Balance", Sarajevo, Holliday Inn 21.6.2025. 16th BHAAAS Days, dedicated to honoring and celebrating the contributions of women in the fields of medicine and science. <https://www.bhaaas.org/en/special-events>

- She has published over 622 papers in domestic and foreign medical journals including 19 textbooks, numerous reviews of indexed papers, books, publications, CDs as well as mentors in bachelor's, master's and doctoral theses in country and abroad. She has lectured at numerous national and international conference.
- *Quotes college Academics:“.....Through lectures and professional work with students and residents, she develop their interest toward medicine, paediatrics and research. Her scientific contribution in preventive cardiology and paediatrics is very well known in scientific world. The results of these researches are published in medical journal, indexed basis; as expert in paediatric echocardiography and excellent speaker, she lectured in numerous European centres, training young doctors, and affirming knowledge gained in her country and Europe. Thanks to extraordinary organising capabilities she participated actively in the establishment of modern clinical-academic paediatric environment in B&H, doing continuous education of health staff around her, expanding ideas of modern paediatric practice and doctrine, giving complete positive impression of medicine in Bosnia and Herzegovina. Her scientific contribution to preventive cardiology and paediatric is known to scientific world through her, among the first in world pioneering research of risk factors for atherosclerosis development in paediatric population. Reviewers of textbooks, manuals and her books indicate her scientific erudition, clarity and ease of writing, simple and recognizable style, modern and contemporary approach to the creation of the text.....”*
